

Creative® TravelSound i50

Slim, powerful, musical.

Creative TravelSound i50 docking speakers allow you to share your iPod shuffle tracks with power and precision.

Compact, light and easy to use, the neat, single-piece design is a perfect match for your second generation player – just slot it in to enjoy your music! The four precision microdrivers and digital amplifier give you ample power, and each charge will provide up to an amazing 15 hours playtime, thanks to the latest lithium polymer batteries. We have included a mini-USB port which allows you to recharge your player and the speakers as well as downloading music from your computer or the web. An intelligent LED display shows when the speakers are charging or ready for use.
