18V Mobile Angle Drill

DDA350

Product Objectives

- Designed to suit the needs of steel framing, woodworking, electrical
- Develop and mobile angle drill with a keyed chuck ideal for jobs that is required in close-quarter applications

Product Overview

Compact angle head

4-Pole motor design

Aluminium gear housing

Paddle switch

LED joblight

Lightweight

Product Specification Sheet

Max. drilling capacities in wood	25mm
Max. drilling capacities in steel	10mm
No load speed	0-1,800rpm
Overall length	314mm
Skin weight	1.0kg
Weight (with battery)	1.6kg
Voltage	18V

- **Compact angle head** – with small head height of only 66mm allows for easy access to screws or drilling in tight spaces
- **Aluminium gear housing** – durable lightweight gear housing protects internal components while also reducing weight
- **Led joblight** – on pulling the trigger the light turns on automatically before the motor starts turning, and keeps illuminated 10 seconds after trigger release
- **4-Pole motor design** – delivers high power for excellent drilling performance while also allowing the tool to be lightweight and compact
- **Paddle switch** – easy to operate large switch trigger with variable speed control for comfortable convenient screwdriving
- **Lightweight** – weighting only 1.6kgs this angle drill is easy to use for extended periods of time without pain from fatigue

Advantages

Power

Makita built 4-pole motor delivers 14N.m of max. torque

Convenience

Built-in L.E.D. light with afterglow illuminates the work area

Comfort

Weighs only 1.6kg for reduced operator fatigue

Control

Variable speed 0 - 1,800rpm for a wide range of drilling and driving application
